

I am very excited about the upcoming season of Parkland Posse lacrosse! Our highest priority is providing our players and families with a great experience on and off the floor.

Ultimately, the kids play their best when they are happy and having fun, which is truly what the game is all about!

We combine a supportive and fun environment with some high-level progressive development strategies. This enables players of all levels of ability and experience to enjoy the process of learning the game and competing on game day.

Can't wait to be on the floor soon!
